

# The Ageing Workforce — a Valuable Resource

HALF DAY WORKSHOP

Presented by  
Professor Dr  
Juhani Ilmarinen

Director, Life Course and Work  
- theme, Finnish Institute of  
Occupational Health (FIOH)

World Leader and Innovator of  
the Work Ability Index Model &  
Author of *Towards a Longer  
Worklife! Ageing and the  
quality of Worklife in the  
European Union.*

Wednesday 29 August 2007 | 9.00am to 12.30pm  
Art Gallery, North Terrace, Adelaide

**Positions at this workshop are limited to ensure an intimate and rewarding learning experience.**

**This workshop will inform the participant about the Work Ability Model developed by Dr Ilmarinen which is designed to engage and utilise the ageing workforce. Dr Ilmarinen will provide the framework for implementing and using the Work Ability Model and Work Ability Index in your organisation.**

Dr Ilmarinen is a Director of a new theme Life Course and Work in FIOH, Helsinki, Finland. The aim of the theme in 2006-2010 is to create new social innovations on how to extend the working life. It covers the needs of young, middle aged and older workers. Innovations are needed to get the younger generations earlier to work, to decrease the risk of unemployment and sickness, absence of middle age groups and improve their possibilities to get back to work, as well as to find solutions for longer work careers for older workers.

Dr Ilmarinen received his Ph.D. in 1978 at the University of Cologne, Germany. Upon returning to FIOH in 1981, a longitudinal study of ageing workers (45+) was started and the subjects have been followed up regularly ever since.

From 1990-1996 he planned and conducted the FinnAge-Respect for the Ageing Programme, and was a member of the State Committee, which put forward 40 recommendations to cope with challenges of the ageing workforce. Dr Ilmarinen was a key player of the Finnish National Programme on Ageing Workers (1998-2002).

Under his leadership the method called Work Ability Index (WAI) was developed, the comprehensive concept of Promotion of Work Ability (PWA) was created and tested in praxis, and the latest innovation was the evidence based concept of Age Management.

He is the Chair of the Ageing Committee of the International Ergonomics Association (IEA) and Secretary of Ageing and Work Scientific Committee of The Ageing and Work Scientific International Commission on Occupational Health (ICOH).
